

Gas-Powered Blowers

ECHO—Feature rotational control to help reduce operator fatigue. 44X133 has rubber top-handle grip with secondary handles for all-position operation and flared-end pipe for moving heavy or wet debris. 425W09 has a curved blower tube and shoulder harness attachment that helps reduce user fatigue. Easy access variable cruise control button located on curved handle. 44X141 is a combination blower, shredder/mulcher, and vacuum. 4-blade shredding mechanism provides 12:1 debris reduction. Includes 35" L intake tube for longer reach and zippered collection bag. 44X133 and 44X141 are CARB and EPA compliant. 425W09 is CARB compliant.

Makita—Compact and lightweight model features a commercial-duty engine with variable speed control. Fuel system oil mix to gasoline is not required. Automatic engine decompression allows quicker and easier starts.

Gas- and Battery-Powered Backpack Blowers

ECHO—Engines offer cruise control. Blowers allow wide-angle tube rotation for optimum mobility. Padded backrest and shoulder straps help minimize fatigue. L-style frame helps reduce impact damage, and Posi-loc tubes provide a secure connection. 44X139 has a vented back pad that allows air circulation in hot weather.

Makita—Commercial-duty engine has decompression system for easy starts. Fuel system does not require oil to be mixed to gasoline. Compact, lightweight blower comes with adjustable joy-stick handle, wide backpack straps, and ventilated back panel. CARB Tier III and EPA Phase II compliant.

EGO—Quiet, lightweight Power Plus backpack blower has a powerful turbine fan for heavy debris-clearing power. Variable speed control and high-efficiency, brushless motor.

Greenworks—Handheld blower creates high-velocity air speeds that handle tough tasks like clearing wet, heavy leaves, grass, and stubborn debris. Designed with a brushless motor that provides power and performance. Additional features include trigger starting, variable-speed control, turbo button and cruise control. Includes battery.

Handheld Electric- and Battery-Powered Blowers

Westward Electric-Powered—Lightweight 2-speed blower/vac includes High/Low control switch and collection bag.

Makita Battery-Powered—Quieter than gas-powered blowers have zero emissions. Lightweight design provides 30 min. of continuous run time on a single charge. Kit 52YW72 includes 36V Li-ion battery and charger. Charger actively monitors current, voltage, and temperature throughout charging process to optimize battery life.

EGO Power Plus—Rechargeable blowers have a convenient, cordless

design with the power to match or exceed the performance of many premium gas-powered models. Quiet operation allows use in areas with noise restrictions. Provides 1 hr. of run time on a single charge. Weather-resistant construction. Extra batteries and chargers sold separately; higher-ampage batteries provide longer run times.

DeWalt—Quiet, powerful, battery-operated blowers give you simple variable-speed operation. Ergonomically designed handles with trigger and speed control.

Walk-Behind Blowers

Rolling blowers ease leaf, debris, and litter removal, as well as pavement surface preparation. An innovative aim and shoot feature allows fingertip airflow direction control. Lightweight rust- and dent-resistant composite housing has smooth, rounded edges for maximum performance and low noise.
