

Litter Vacuums

Suitable for leaf, litter, and debris removal in residential or commercial applications.

Residential/Light Commercial Duty—Feature a 5-blade serrated impeller, zipperless bottom-load mesh turf bag with fasteners for easy unloading. 12" wheels allow maneuvering in tight spaces. Clean up to 35,640 sq. ft./hr. 5NLG6 is for hard surfaces, 5NLG7 has a 1-speed transmission ideal for hilly turf applications.

Commercial Duty—3-speed with a 6-blade impeller. Top-fill mesh turf bag slides out on rails to ease unloading. 14" wheels allow maneuvering over uneven areas. Micro-adjustable height control allows use on turf or hard surfaces. Cleans up to 45,000 sq. ft./hr.

Industrial Duty/Hard Surface—Feature cyclonic filtration with dust sock technology to help reduce dust in dry conditions. Shift-on-the-fly hydrostatic transmission features a variety of forward and reverse speeds for operating in wide open areas and to allow maneuvering in tight spaces. 4-latch bag system is easy to operate.

SWEEP^{EX}
Rotary Broom Sweepers

Walk-Behind Sweepers—Compact sweepers have a powerful Honda engine and an oscillating broom head, as well as 3 forward gears and 1 reverse gear, for excellent performance on a variety of surfaces. Multifunction controls for travel speed, brush speed, pressure, and brush direction. Adjustable height allows comfortable use. Fold for easy storage. Include Multipurpose Brush Kit. Additional attachments sold separately for year-round functionality, see page 992.

Brush Kits—Dirt Brush Kits get at embedded and hard-to-remove

dirt. Maintenance Brush Kits are ideal for sweeping ground coverings, such as brick pavers, which require special care.

Brush Extension Kit adds 5.5" to the broom sweep path, and helps with cleaning around corners and edges.

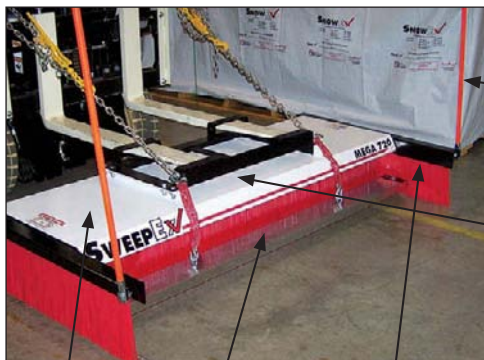

Debris and Leaf Collection—Debris Shields help protect the user from flying debris, such as rocks, sticks, and other scraps; Debris Collectors catch the debris, and direct it into the sweep path.

Leaf Collectors push and clear leaves from entryways, sidewalks, and parking lots.

Mega Series Sweeper 4AZZ7
Magnet Bar 4CAC2
Debris Containment Ends and Edge Markers 4CAC3
Edge Marker Kit 4CAC4
Forklift Mount 4AZZ9

Forklift Broom Attachments **SWEEP^{EX}**

Sweepers—Turn forklifts into cleanup equipment. Sweepers are attached to forklift tines and are suitable for wet and dry use, indoors and outdoors. 11" L virgin polypropylene bristles are easy to rotate and change. Mega Series requires Forklift Hitch 4AZZ9 for mounting to fork tines. Replacement brushes are available on Grainger.com.

Accessory Attachments—Magnet Bars pick up nails and loose metal debris. Debris Containment Ends keep debris in front of sweeper. Edge Marker Kit allows driver to see exactly where sweeper is located. To attach the Pro and Mega Series sweepers to a skid steer unit, use 54EM87 Skid Steer Hitch with Pro Series sweepers and both 54EM87 Skid Steer Hitch and 54EM88 Adapter Plate for the Mega Series sweepers.
