

SNOWEX
Push Broadcast Sprayer

Completely electric powered with the ability to spray salt brine through the spot spraying wand or front boomless nozzle. Ideal for stairs and sidewalks. Powered by a 12V electric pump, rated at 1 gpm at 60 psi, which includes a rechargeable battery that fully charges in 12 to 16 hr. Accessible vent cap for easy filling.

Mounted Broadcast Spreaders

Rear-mounted spreaders with corrosion-resistant poly hoppers use 12VDC variable-speed motors to adjust the spread width area. 8XTT1 includes On/Off drop switch, mounting brackets, and hardware. Power train-operated spreader 5NTR0 has a 3-pt. hitch and manually adjustable flow rate. Rear-mounted spreader 5NTP9 has a powder-coated steel frame, 2" receiver hitch, and hopper cover. Features electric-controlled flow gate and calibrated drop.
